“The Child is both a hope
and
a promise for mankind.”

Maria Montessori

August 3, 2017

Dear Parents,

I hope that you are having a great vacation with your family. It certainly goes by quickly. We have been very busy this summer getting the building cleaned and reorganized for the arrival of your children in September. In addition to the building preparation, we have been preparing some new curriculum materials as we do each year. We are ready to begin class and anticipate another great year of Montessori learning.

This September, we will begin our 26th year of offering Montessori education to area students. It has been an incredible journey, full of curves, slopes, hills, and valleys but mostly of beautiful memories. At our Montessori Night Out Fundraiser this June, we had several alumni and their parents attend and it was wonderful to “remember” and to feel so much pride in their achievements. Judging by their accomplishments, they are fulfilling the promise of hope. They are good people and productive adults. They continue to have strong feelings about the Montessori method and lasting bonds to our school. It was a wonderful night!

As in the past, I invite you to visit your children during the school year, to spend some time observing their day and to develop a sense of how the Montessori classroom functions. You may be overwhelmed on your first visit and maybe even your second visit. However, once you can see the materials that your children talk about, experience how they work, and hopefully research more about the Montessori pedagogy, you will be able to connect to your child’s daily experiences. You will also have another opportunity to familiarize yourself with your child’s experience by attending a Mandatory Parent Orientation on the 19th of September. Please mark your calendars.

I wish you a great finish to the summer and look forward to seeing you very soon.

In Peace,

A handwritten signature in cursive script that reads "Alice Marie Levesque".
